Vatican Museums (60 days before)

- **Tickets generally become available around midnight Rome time on the release day.**
- **Pacific time = 3:00 PM the previous day.**

So, for example:

- **If tickets for July 5 are released 60 days prior → that date opens May 6 at ~00:00 Rome time → May 5 at ~3:00 PM PDT.**

🔵

Colosseum Tickets (30 days before)

- **Colosseum tickets for a specific entry time release about 30 days prior, usually around 00:00 Rome time for that timeslot.**
- **In Pacific time, that's 3:00 PM the day before.**

So, for a July 4 Colosseum visit slot, the ticket would become available June 4 at ~00:00 Rome time, which is June 3 at ~3:00 PM PDT.
